

Spring MS1

Mechanical Diaphragm Metering Pumps

The SEKO MS1 Series motor driven mechanical diaphragm metering pumps offer high volume at an affordable price point. The MS1 Series achieves flow rates up to 110 gph with a pressure rating as high as 116 psi.

Each model can be adjusted manually between 0-100% of the total flow rate.

Liquid end materials include a PVC Head, PVC Valves, Ceramic ball checks and PTFE diaphragm.

Spring Series pumps include a 115Volt, 56C frame 1/2HP, 1 phase motor.

Model #	Strokes Per Minute	Flow Rate (gph)	Pressure (psi)	NPT Connections
MS1 B108 C31I40U0	78	27	116	3/8"
MS1 C138 C31I40U0	78	75	80	3/4"
MS1 C165 C31I40U0	78	110	55	1.0"
