

CAPACITOR RETURN, MOTORIZED BALL VALVE INSTALLATION NOTES:

Rated Voltage: 110VAC

Working Current: $\leq 1A$

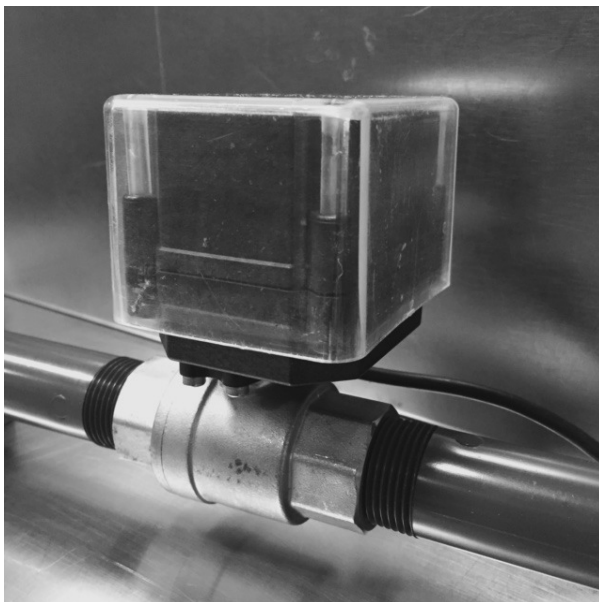

Capacitor Charge Time: $\leq 60s$

Protection Class: IP67*

*Note: The CRMBV actuator carries an IP67 rating, which indicates the actuator resists water infiltration for short periods of time. **However, it is not waterproof.** Care should be taken to choose an installation location protected from rain, snow, heat, direct sunlight, and wind.

CRMBV - CASE: Quantrol recommends using the CRMBV-CASE for outdoor installations to provide additional weather protection, and a better service life.

P/N: CRMBV-CASE

Available for:

- CRMBV-1/2
- CRMBV-3/4
- CRMBV-1.0
